Hi Jaden,

Thank you for reaching out to me and sharing your data analysis by mail! I appreciate your interest in using data to inform policy making in transportation and transit. You have a bright future ahead in our field!

I have cc'ed Peter Kersten, our division manager of regional planning to follow up with you and offer a virtual or an in-person meeting with a couple of our analysts who can provide you feedback on your work and also share with you the type of work we do everyday to get more folks to ride CTA, Metra, and Pace.

Best regards,

Maulik
